Two weeks since we admitted to our colmns a communication bearing upon two individuals, supposed to be the authors of several anonymous articles that recently appeared in the Independent. The author of that communication has since been formally demanded by F. Hollenbeck and D. W. II. Day, claiming themselves to be the persons described therein. Upon the impulse of the moment we were inclined to the belief that if they were the individuals meant, perhaps some injustice had been done them, and at that time if we had chanced to meet either of them we would have given them the author's name. However, on second reflection, we have thought proper to change our course on the admission of matter to our columns, and of course hold ourselves umenable to the laws.

For this reason we shall not furnish the name of the author of "Dry as Dust, Jr." to him at present.

To Mr. Day we have several reasons for not desiring to furnish the name of the author. One of these is that on the day of the held at Fremont, on Wednesday, Thursday Union County Convention, he divulged a Concerted scheme for flooding this county with circulars, (to a gentleman whom he supposed would keep the secret) by which means a wholesale system of the abuse of that we will be abuse of the secret are always as an out may be recommended to percent about the parties abroad, compared with the many influences brought to bear upon its reputation, that have been an injury both to the county and the people. DEAR Sin :- Having read your article referring to the tailor, permit him to thank you for the generous and condescending manner in which you adverted to his trade, his motives and capabilities. Thus much I am inclined to say a
